Week 3 - The Well

The Problem

Questions:

1. What does it mean to be brought forth in sin and iniquity?
2. Why was the partaking of the fruit in the garden so incredibly disastrous to our spiritual oneness with God?
3. There are 2 trees which we can partake of. Why is it essential to our inner growth and transformation we partake of the Tree of Life and not the Tree of the Knowledge of Good & Evil?
4. Why is allowing ourselves to be uncovered before God, in our inner most being place, so vital to our inner Life in Christ?

Being in control and wanting to stay in control of one's life (i.e. being the source and strength of your own life), is a consequence of the fall of man, which we must bring before God and confess before Him. God wants to release us from ourselves through His power.

We must be prepared to ask the Holy Spirit to come and do a deep severing work through our confession of repentance.

Does anyone need to take this step of trust in God tonight?
